**McLaren MP4/6 F-1 Ayrton Senna**

July 2009

Ayrton Senna is considered by many as the greatest Brazilian driver of all time and among the best in racing history. His near-magical technique, precision, dedication, and performance were a hallmark of his career. Over his 10-year career, Senna had 41 victories, 65 poles positions, and three championships.

The violence and precision of the races have never scared Ayrton Senna. He would transform himself into pure power, overcoming all challenges while seeking victory. Although some have claimed that Ayrton was a fearless man, Senna would couple his great driving skills with religious faith and dedication, motivations that allow him to seek balance, even in the most difficult courses, and to achieve victory.

The SCX Ayrton Senna F1 MP4/6 is a limited edition of 6000 numbered models made with the authentic, original EXIN LINE BROS S.A. moulds. The slot car comes in a numbered collectors box with an informational booklet.

### Sport Table of Measurements

|                     |       |                    |                      |
|---------------------|-------|--------------------|----------------------|
| Wheelbase           | 89mm  | Transmission type  | 4x2 direct rear      |
