## Digital NASCAR Set

### **NASCAR Racing**

NASCAR is the most popular motor championship in the United States. NASCAR was created in the difficult era of post-WWII (1948), when due to a shortage of new cars, Hill France, the President of NASCAR, had the idea of transforming street (stock) cars into top racing vehicles.

Since then NASCAR has grown to become the second most popular professional sport in terms of television ratings inside the U.S. with a very large international audience as well: NASCAR races are broadcasted in over 150 countries with more than 75 million fans.

### **The Digital Technology**

*Change lanes to pass your competitors:* Thanks to the digital technology you can now change lanes and pass your competitors by only pressing the button of your hand throttle, sending a digital instruction to the car. More realistic and exciting!

*Compete with up to 6 players:* No need to wait your turn to play SCX. Now this new digital system allows up to 6 players on the same 2 lane track. More Competition!

*Monitor constant race information:* Digital communication is constantly flowing between the car and the hand throttle as well as each SCX electronic accessory: Chronometer, Lap Counter and Pit box. More Real!

*Determine your race strategy:* By adding the Pit Box accessory, you can program each race in a unique way by adjusting fuel tank size, entering the Pit Box to refuel the car, and/or adjusting brake intensity. When you run low on fuel, your smart car will start to stutter, or if you enter pit row to fast, you get a penalty. More Strategic!

# Digital NASCAR Set

## The Racing Track

SCX opens a new category in its catalog with the NASCAR Digital Set. This new racing system allows players to feel the real emotions of competing on a Tri-Oval racecourse with real molded banked curves and 3 lane changing tracks - allowing cars to pass their rivals (or avoid crashes).

## Contents

- 3 electronic hand throttles
- 1 central control unit
- 1 terminal track 360mm
- 4 standard straights 360mm
- 3 changeover tracks 360mm
- 2 standard curves
- 8 track supports
- 3 medium straights 180mm
- 6 banked curves
- 3 NASCAR cars

You can reach high speed in the straight sections of the track, but you must maintain control in the curves while using the cross-over tracks to overtake your competitors - just like at a real NASCAR speedway!!

Add more fun to this SCX NASCAR Digital set with the wide range of SCX accessories:

**Chicane**

**Supersliding curve**

**Lap Counter**

**Chronometer**

**Pit Box**

**Banked Curve**

**Bridge**
